

HMM...
IONIZATION CAN HELP FORM
HYDROXILS THAT CAN ROB PATHOGENS
NECESSARY FOR THE VIRUS TO SURVIVE,
KILLING IT IN THE PROCESS. IMMUNIZATION
WITH ANTI-COVID VACCINES TOO WILL HELP
PROTECT US FROM GETTING VERY ILL
AND DYING!

A FEW
WEEKS AGO...

UVGI, OR
ULTRAVIOLET GERMICIDAL
IRRADIATION CAN KILL MICROORGANISMS
AND PATHOGENS BY DAMAGING THEIR DNA,
DESTROYING THEIR ABILITY
TO REPRODUCE...
HMM...

BUT THERE ARE
MILLIONS OF LIVES AT RISK
RIGHT NOW! I NEED TO COME UP WITH
A SOLUTION THAT IS FREE AND AVAILABLE
TO EVERYONE... THAT'S IT! I'LL
MAKE A VACCINE USING MRNA!

BECAUSE
WHEN WE
FINALLY
FIND A
CURE FOR
THIS VIRUS
...

THE WORLD WILL
BECOME PROGRESSIVE AND
WE WILL FINALLY BE ABLE
TO GO OUT FREELY

AS LONG AS WE ALL
FOLLOW PROTOCOLS...

...WASHING
OUR HANDS

WEARING
MASKS

DIS-
INFECTING

THEN YOUR KIND
DEFINITELY WON'T
LAST LONG!

GET
OUTTA
THIS WORLD,
CORONSKI!

BUT FOR NOW...

**...WE MUST CONTINUE WITH
RESEARCH AND DEVELOPMENT
TO MAKE A BETTER WORLD**
